Detecting the Ghouls.

By Telegraph to the News.

NEW YORK, Nov. 15.—The Times says official permission is given it to announce the discovery of Stewart's remains, and of each robber. The evidence is nearly complete to send each to prison, and the officers are ready to arrest, only waiting the signal.

Names are not mentioned, but some are highly responsible, one a prominent attorney. The principal perpetrator is out of town, but shadowed. All the others are in New York. Three sets of detectives are engaged; one under Chief Kealy, another under Inspector Murray, a third under Hilton, all concentrated on the same clues. The parties having the body are a different set from the robbers. The conspiracy was arranged with great care Three persons hired a room at 44 Stuyvesant Place, the week before the robbery. They had a big leather trunk in a carriage on the morning of the robbery, while the three parties strolled off. The body is believed to have been taken to the church portico, thence across the 10th street fence to No. 129. There it was boxed and taken to Jersey City ferry, then sent to the interior of the State. The exact location is known, says the Times, and was discovered several days ago, but secrecy is kept to make sure of arresting every one and securing full punishment and making an example. Money was largely spent. A prominent eastside undertaker is supposed to be implicated. Much credit is given the regular police. The police authorities do not confirm the report of the Times and say neither they nor Judge Hilton know aught of robbers or the location of body.

Liverpool Cotton Brokers' Circular.

By Cable to the News.

LIVERPOOL, Nov. 15. -This week's circular of the Liverpool Cotton Brokers' Association, says the cotton market was quiet in the early part of the week, and a moderate business was doing, with a tendency in favor of buyers. Wednesday, the delivery increasing, there was more steadiness. Thursday there was a good business, but some descriptions were slightly reduced. American was in fair demand, but the market being freely supplied, there was from 1 16 1-1-18d decline, in some cases Sea Island was in improved inquiry, and holders met the demand. Futures were quiet and at the close 1-32d higher.

Mrs. Riley's injuries are not fatal but the husband cannot live.

Heating Cities by Steam.

Companies are being organized to heat cities by steam, a single set of generators furnishing steam for a radius of half a mile or more. The noise of the pipes, on a cold night in a city thus heated, would be equal to the thunder of a heavy cannonade. It would beat Macbeth in murdering sleep.

Black Sea Neutrality Invaded.

By Cable to the News.

LONDON, Nov. 15.—The British gunboat Condor recently went to Bourgas to investigate an alleged outrage on the British vice consul. The St. Petersburg Golos has a strong article on this event which it says constitutes a clear violation of the neutrality of the Black Sea: "The English may cut our sea communication at any moment. Does England wish to measure Russia's forbearance? Who is now seeking for war?"

Swiss Affairs.

By Cable to the News.

LONDON, Nov. 15.—Switzland did not denounce the Convention of 1865, constituting the Latin Union, because of any dissatisfaction at the proceedings of the recent Paris conference. On the contrary its propositions were accepted, subject to ratification by the Chambers. The Convention of 1865 expires by limitation at the end of 1879, when unless denounced, it renews itself for fifteen years. The action of Switzerland will open the way for the negotiation of a new treaty.

The Canon of the Yellowstone.

The grand canon of the Yellowstone, which during the past year has been successfully explored by Professor Hayden, is the most remarkable of the great natural curiosities of its class in the country. The gorge is three thousand feet deep, and in some places the walls are almost perpendicular. At the bottom it is so dark that the stars are plainly visible during the daytime. The river is about six hundred feet wide, and plunges over four precipices in grand waterfalls. One of the falls is a sheer leap of four hundred feet The forthcoming report of the geological survey of this wonderful region will be the most interesting contribution to our knowledge of interior America since the explorations of Fremont.

American Coins in China.

The director of the mint says that all efforts to induce the Chinese Government to establish a mint seem to have failed, and that Empire must depend on foreign coins, the use of which has been gradually increasing for several years past. It will be to the advantage of America to supply these coins, so far as she can without detriment to her own money system, and the trade dollar having obtained a favorable position in China, it would not be advisable to repeal the law authorizing its coinage. Dr. Linderman says that the extent of the silver-producing territory justifies the belief that the American production, together with the silver that the trade of this country will naturally command from Mexico and South America, will soon be in excess of any probable demand for our own coinage purposes, and America must look to China principally for a market for her surplus.

THE CHARLOTTE FAIR.

Thursday at the Grounds--The Big Day---Military Match---Large Crowd.

Charlotte Observer, 15th.

Thursday was the big day of the fair. It was understood before hand that it was to be, and everybody who expected to attend made preparations to be on hand. The crowd in the city was marked by the appearance of many persons from a distance, the visitors, heretofore, having mostly come from Mecklenburg and adjoining counties. The hotels were crowded to their fullest capacity, and the streets were thronged even in the early part of day. It was the military day, and the preparations for the parade and review began early. Under command of Col. C. W. Alexander, the Hornets' Nest Rifleman, Charlotte Grays, Polk Rifles, Mecklenburg Riflemen, Anson Guards and Cadets of the Carolina Military Institute, marched to the fair grounds, and were reviewed by Adjutant-General Jones. After a rest of a half hour or more, the prize drill was announced. The premiums contested for were as follows: First premium—$100, offered by the ladies of Charlotte to the best drilled company. Second premium—Gold medal, to the second best drilled company, to be worn till next contest, by the orderly sergeant, offered by J. T. Butler.

The judges were Adjutant-General Jones, Col. C. W. Alexander, of the second regiment, and Capt. Wm. Cain, of the Carolina Military Institute.

At the conclusion of the drills, the judges announced that the Hornets' Nest Riflemen were entitled to the first prize and the Grays to the second.

Another event to which much interest was attached by farmers, was the plowing match, which took place on the grounds, beginning a little after noon. The premiums were a silver medal, and a No. 10 Oliver chilled plow. Seventeen farmers from different parts of Western North Carolina, the majority of them young, contested. The plows used were those on exhibition on the grounds. The contest was very spirited.

The committee awarded the premium to Mr. William W. Robinson, of Cabarrus county.

The crowd on the grounds and especially in the main building was noticeable for the large proportion of ladies. The ladies' department, therefore, attracted much attention during the day.

The exhibit in the stock department received many important additions, and is very good, especially the blooded horses and colts.

The fowl department is one of the best represented at the fair, embracing over two hundred fowls, mostly chickens. Almost every variety of chicken is represented, and many of them are the very finest.

It is a pleasure to note the creditable position which the products of the two iron works of Charlotte took in the exhibits of machinery.

The loom from the factory of the Tate Bros., Mountain Island, which was in operation in the main building, was a curiosity to all beholders.

The Steamer Chowan.

Tarboro Southerner.

Among the many enterprises that are deserving of special notice in Eastern Carolina, is the magnificent Steamer Chowan, of the Black Water line. This steamer runs between Plymouth, N. C., and Franklin, Va., on line of the Seaboard & Roanoke Railroad, connecting with the railroad at the latter place. The Chowan is beautifully and magnificently fitted up for the accommodation of the traveling public. Her table would do credit to the famous Delmonico. She is 458 tons burden, has a freight capacity for at least 400 bales cotton, can carry 300 passengers, and has 14 elegantly fitted up staterooms.

The Silver Question.

Philadelphia Record.

It is evident that the silver question will come up again this winter for some kind of adjustment. The proposition to make the silver coin redeemable in gold at the United States Treasuries, it is thought, will be submitted by the Administration for the consideration of Congress. The trade dollars should also be made a legal tender for a certain amount. With proper provision for the redeemability of silver there is no doubt a large amount of it could be kept in circulation.

Sensible Expressions.

Philadelphia Record.

Until the Republican party in the South is more reputably represented than it is by such candidates for Congress as J. Madison Wells and ex-Judge Ludeling, the people of the Northern States, without regard to party, will not scrutinize too closely the means that are adopted to keep them at home. Both these men are fitter for the penitentiary on account of their past crimes than for public position. It is too late in the day to fire the Northern blood by reciting wrongs done in such rascals. There is not a reputable Republican in the whole country who is not scandalized by the prominence of such men in the councils of the party.

Spain's Latest Financial Fiasco.

New York Star.

Advices have been received that the bills of exchange drawn by the Spanish Bank of Havana, to the amount of $1,500,000, on London and Paris, for account of the late loan of $25 000,000, with guarantee of the Customs revenue of the island of Cuba, have been dishonored on demand for payment. This is the second time that loans have been negotiated on the strength of the island revenue, of which the colony has not had the benefit of one-tenth, since it is all swallowed up by the immense deficiences in the Spanish exchequer.

Carolina Industries.

There is a factory at Newbern, N. C., for manufacturing wooden dishes of the sap wood of the sweet gum tree. The logs are split with a knife into slabs of about ⅝th inch thickness, cut into suitable lengths, and pressed into shape by a powerful machine, the dies being hot enough to make the wood retain the dish shape. The work is quickly done. The ware is very cheap and chiefly used by retail grocers to pack up butter and fruit parcels instead of using paper and paper bags.

Bail Refused.

By Cable to the News.

EDINBURGH, Nov. 15.—The High Court of Justice has definitely refused to admit to bail any more of the Glasgow bank directors.

A New Intoxicant.

A rival to beer and whiskey has arisen in Ireland. The new intoxicant is methylated spirit of either, manufactured for lamps and other every-day purposes, and is cheap and nasty. Like alcoholic inebriety, the intoxication produced by this liquor is characterized by quick excitement, flushing of the face, rapidity of the pulse, elevation of the mind, and rapid, unsteady motion. It is peculiar, however, in coming on immediately, passing almost at once into its highest stage and quickly subsiding Alcohol clings to a man, keeps up this excitement a long time and leaves him depressed and weary. Ether, on the other hand, it is said, being rapid in its action, feebly soluble in the blood, quick in being eliminated, speedily releases its victim and, without causing any great strain on his physical powers, leaves him suddenly sober. It seems to exalt and stimulate, but not to infuriate, and consequently does not urge its victims to crime. Its effects, therefore, though decidedly injurious, would appear to be less so than those of alcohol.

The Greenback Meeting.

Washington Post.

The National executive committee of the National party will meet in Washington on the 30th inst., and remain in session one week. Gen. Butler, the venerable Peter Cooper and the reverend Greenback Congressmen, Dr. De La Matyr, will be among the distinguished Greenbackers who will take part in the committee's deliberations. The day fixed for the meeting of the committee is the Saturday previous to the meeting of Congress, and the chief object in view is to hold a conference with the Greenback members elect in regard to the use to be made of their votes in organizing the House. Is is also intended to discuss the future of the National party and its prospects for the canvass of 1880.

Going Down.

Philadelphia Times.

Mr. Hayes, the President, seems to have taken nearly the last step on the downward path which he began to tread when he turned his back upon consistency and truth and gave his letter of acceptance and inaugural address to the winds by abandoning his puny effort to purify the civil service. Of all the solemn pledges that he gave to the nation only one remained unviolated at the close of the first year of his administration. That one was the pledge of the restoration of local self-government to the people, particularly to be exemplified by the relief of the South from military oppression and the brigandage of carpet-baggers. This, too, it is now semi-officially announced, he proposes to trample under foot, and as the most convincing earnest of his dishonest intention he has chosen the editor of the sheet that most reviled his policy as his medium of communication with the public. And as if to make his disgrace and humiliation as complete as possible, he takes Senator Cameron and ex-Senator Chandler to his heart and home.

The Indian Question.

Washington Star.

The latest solution offered of the Indian problem is the transfer of vagrant and misbehaving bands to the Santa Barbara Islands, off the coast of California. They are said to be amply large enough to hold 10,000 Indians and to furnish sustenance for all of them after a few years. A small gunboat or two is to be kept constantly cruising around these islands, not only to prevent escape, but to prevent traders from supplying the exiles or captives with rum and improved firearms. When the Indians are removed to San a Barbara they will be about as far west as we can well get them. If crowded further, they must be driven into the ocean. One may imagine circumstances in which, if this plan were carried out it would be unpleasant for the whites on the Santa Barbara Islands. When the Indians on a reservation cannot get enough to eat, either through insufficient appropriations, or misappropriations, they go on a buffalo hunt or on the war-path. Their former resource would be denied them when cooped up on an island, and the latter alternative would more frequently be resorted to. As they would be denied the privilege they now enjoy of marching over thousands of miles on the mainland, with the army in full pursuit, their undivided attention would be bestowed on the white men dwelling amongst or near them.

Floyd Smith and His Wife Hanged.

Memphis Appeal

A special to the Appeal reports the hanging of Floyd Smith and his wife, Maria, colored, by an armed mob of thirty or forty persons, on November 4, three miles southwest of Hernando, Miss. Both had been arrested and lodged in jail at Hernando, charged with murdering a little white girl, six years old, which had been left in their care by its mother. A post-mortem examination of the child revealed the fact that its skull had been broken. Rumor gives as the reason for the murder of the child that the negroes were instigated by the mother, who would inherit a large estate on the death of her offspring.

Strange Notions.

N. Y. World.

A Catholic clergyman at Ste. Cunegonde, near Montreal, has been urging upon his flock from the pulpit the necessity for complying with the Public Vaccination law, and ridiculing the prejudices against it. Many hundreds of French Catholics in Montreal have died during the past two years of smallpox, and not a few of their priests and doctors have counselled them not to be vaccinated. Some of them had received the impression that vaccination and baptism were identical, and that the Vaccination act was only a subtle scheme to make Protestants of them all.

The Trade Dollar.

N. Y. Tribune.

The Director of the Mint devotes a considerable portion of his forthcoming annual report to the subject of the trade dollar. He states that wherever they have been introduced in China they have met with a favorable reception, and continue to grow in estimation. He considers it a satisfactorily established fact that the trade dollar has proved beneficial to the Chinese, to the American merchant and to the producer of silver. Since their coinage was authorized 35,959 360 trade dollars have been produced and 25,703,950 have been exported.

Wholesale Incendiarism.

A belief prevails at Cape May that the disastrous fire of Saturday last, which consumed everything of a perishable nature, over forty acres of ground, was the deliberate work of incendiaries. This theory will be confirmed beyond dispute if it can be proved, as alleged, that the flames broke out in three distinct buildings at the same time.

Co-Education of the Sexes not a Success.

At last, through the weakness of a daughter of Eve, the faculty at Oberlin College, Ohio, have found out that the boys and girls in that institution have been in the habit of holding clandestine meetings. This is considered a sad blow to the system of co education of the sexes. Persons who do not look at the world from the Oberlin standpoint will see nothing more in it than a vindication of human nature. The Catholic church shows wisdom in putting walls about its nunneries to keep the boys away. The contrary plan of walling the boys and girls within the same inclosure, and then expecting them to sit demure and suck their thumbs, whilst mischief, love and danger tempt them to more pleasant employment, is not based on human experience. It doesn't work well even at Oberlin, where morality is business.

The Paris Exhibition Closed.

New York Star.

The great International Exhibition at Paris is closed. Taxing into consideration the various circumstances which surrounded this Grand Fair from its inception—such as the threatened peace of Europe, and the endeavors of the enemies of the young Republic to frustrate the success of the Exposition—the French people have many strong reasons to be proud of the result of the enterprise, which has drawn to their capital so many thousands of people from all countries to admire the progress France has made in so short a time under a Republican form of government. Both from an artistic, a commercial and a financial point of view, the Exhibition has proved a wonderful success. Moreover, it is a signal triumph for Democratic institutions, as tested by the prosperity of France, who, during the comparatively short period of seven years of Republican rule, has retrieved her past terrible disasters.

The Jury System.

The St. Louis bar association is investigating the abuses charged against the present jury system, with a view to devise some means by which honest and intelligent men can be secured for jury service. A report on the subject has already been made by a committee appointed for the purpose, but it is not believed that the matter will be permitted to rest at that stage. The adoption of a new jury law is suggested. The necessity of some change in the method of choosing jurors or of selecting the names from whom the jurors are taken, by which an improvement in the character of the average juryman may be worked, is as evident elsewhere as in St. Louis.

Improved Ballot Box.

N. Y. Tribune.

A ballot-box has been invented in Boston and is now on exhibition at the American Institute, which, by an ingenious though simple mechanical arrangement, will register every ballot deposited in it. The voter is supposed to place upon a small shelf which projects from the box his vote, which the inspector at once pushes beneath a registering stamp. A crank is turned and the ballot first receives its proper letter and consecutive number and then falls into the box beneath, after which it can be neither seen nor touched until the appointed officer breaks the seal and unlocks the door. The apparatus can be easily adjusted to ballots of any size, and if any one should attempt to cheat by placing two or more ballots on the projecting shelf only the top one would be registered, and when they came to be counted the duplicates would be thrown out as fraudulent.

The One and Two-Dollar Notes.

WASHINGTON, Nov. 12.—Secretary Sherman, referring to the rumored withdrawal of the one and two-dollar United States notes, says: "Fully a year ago the story was started in some paper and caused an unnatural demand for small bills. The statement was unfounded other than that, having one year's supply of ones and twos on hand, the Bureau of Engraving and Printing stopped printing any more till that supply could be reduced. No order was issued to the Treasurer to limit the issue of ones and twos, but they were issued to everybody who demanded them. No order has ever been made for their withdrawal."

The Electric Light Perfect.

A correspondent of the New York Evening Post says on the authority of an eminent scientific gentlemen who is an intimate friend of Edison's and had just returned from avisit to Menlo Park, that the electric light is entirely ready for introduction into general use, and that the company is simply waiting for the European patents, which the English solicitors have just telegraphed them will not be ready under twenty days. The apparatus is said to be standing complete in Edison's workship, and to give a soft, beautiful light of the same strength as gas. The highest estimate of its expense makes the cost one half that of gas. Edison is represented as being undisturbed by the attempt of the rival company, controlled by the gas men, to anticipate his light, being confident of the superiority of his invention, and considering moreover, that the two companies will occupy rather different fields.

DAILY NEWS

SATURDAY,.....NOVEMBER, 16, 1878

ORGAN OF THE DEMOCRATIC PARTY

The News Building, No. 6. Martin Stree

The action of the New York Banks, in regard to the specie resumption question, relegates the silver dollars to their former uses in making small settlements. They are to be received, not as gold or greenbacks are, but only as special deposits, under contract that they will be withdrawn in kind. They will become, in effect, "not bankable," and their circulation will be restricted to the limit of their usefulness in making small settlements, as subsidiary coin. The banks' measures will, for the present at least, establish the par of all business trausactions in gold, or its equivalent, greenbacks.

IN the confusion incident to our own conflict, though it was but a political one, the progress of matters in the old World has not been regarded with the attention which was some time past given. The dispute as to the fulfillment of the Berlin treaty has drawn its slow length along, and the bustle of preparation for possible, nay expected strife, has been the all absorbing work of men's minds and hands. Charges and counter charges, denials and affirmations, have been made by the powers at issue. With such a state of affairs existing, even the emphatic avowals of peace which come simultaneously from Paris, London and Vienna are to be regarded with suspicion. Peace for the present there must be, for Russia just now is in no position voluntarily to undertake another European war; and to this fact it is not unreasonable to attribute her earnest desire to impress upon Europe the belief that the war definitely is at an end. Yet the best that can be said of the situation is that fighting in Europe has stopped. An armistice is assured, but an enduring peace seems to be very far removed from the region of the probable.

THE discussion to the propriety or necessity of in some way limiting the right of suffrage has taken a general scope. In an article on this subject the Chicago Times says: There is a growing sentiment in this country in favor of narrowing its present limit. There is a class, not inconsiderable in numbers, of persons who believe that the Republic is destined to fail because of the fact that it is based upon universal or impartial (male) suffrage. Some of these persons propose to restore the property qualification of the early New England Constitutions. Others urge the establishment of the intelligence qualification. All insist that grave danger impends on account of the existing system of suffrage. They point to the bad manner which large cities are governed. They urge that this ill-government arises from the fact of the presence in the aggregate of suffrage of a large element composed of vicious and ignorant persons. They point to the late labor troubles occurring throughout the land as evidence of an alarming increase in the ranks of the desperate, dangerous classes, and say: These are all armed with the right of suffrage, and they will eventually unite at the polls to strike down any effort to adopt measures sufficiently vigorous and summary to restrain them from contemplated assaults upon the rights of property. They point to the Communistic and Socialistic orders as the crystallization of dangerous ideas in solid, compact form, and declare that these orders are aggressive, that our Government of limited powers will at the pinch prove too weak to cope with them, that anarchy and revolution will supervene, and Governmental dissolution ultimately follow.

THE gentlemen composing the two committees appointed to examine into the practical workings of the "no fence" law in Mecklenburg, have returned. One of these committees was appointed by the Roanoke and Tar River Agricultural Society, the other by the State Agricultural Society. The gentlemen selected for this purpose are admirably suited for such a mission. On arrival at the secure of their labors, they made careful examination of the benefits of the law, which has now been in force in Mecklenburg sufficiently long to have been put to a crucial test.

Diligent inquiry developed the fact that with the great majority of the people the law found favor, and that the expense account of the farmers shows notable reductions. The committees, therefore, return impressed with the manifold advantages of the law, and will in a few days report. The committee of the Roanoke and Tar River Society will report to that body and then make public their report in the press of the State. The other committee will report to the State Agricultural Society, which sent it, and the report will, at the approaching session of the Legislature, be brought before that body, as, in some sense a basis from which to draw practical deductions and facts.

THE Washington Republican prints an interview with President Hayes, wherein he outlines what he terms his "Southern policy." In effect he breathes fire and slaughter against this section of the Union. The most ultra radicals will howl with delight if these utterances, purporting to have been made by Hayes, be really his own. He is reported as having said in reference to the Southern situation: "The time for discussion has passed. It is now too late for anything but the most determined and vigorous action. This determination was reached several days ago, and the deliberations was of the Cabinet on this subject since then have been comparatively brief, and confined mainly to the consideration of the duty of the Attorney General in the premises."

Commenting on the reported conversation, the World says: "If the sentiments attributed to Mr. Hayes were really uttered by him, the revival of business throughout the country is threatened by a deliberate plot to rekindle at Washington the sectional strife which has already brought us so near ruin. Mr. Hayes is made to commit the indecency of charging that the elections were carried in the South by intimidation, and to pledge himself to protect the negro voters with all the ingenuity of the Department of Justice and all the power of the Government. If the President and his advisers undertake this evil work they will move with a caution and an affected moderation which may make their interference with the peace of the country more dangerous than the brazen brutalities of Grant. We have supported Mr. Hayes in his conciliatory policy earnestly and without reference to party lines, and the report that he has abandoned it we are unwilling to accept without confirmation. It is his duty to carry out the laws and maintain the rights of all citizens; but he is the first executive officer of the country, and there is something scandalous beyond expression in the partisan outcry here attributed to him. The politicians of the country generally, of both parties, have shown a wonderful alacrity in misunderstanding the public temper and misinterpreting the manner of this or that election. But if this Washington story of the surrender of Hayes and Evarts to Chandler and Conkling be well founded, this Administration is in a way to sink below any of its predecessors."

Ladies and the Press.

An exchange says the society news in the St. Louis paper which reported an engagement between Uncle Samuel Tilden and the belle of St. Louis, has furnished the Rev. John Snyder, of one of the leading churches of that city, the text for some preaching. He talked to the point, and said many things that ought to have a beneficial effect where it seems to be most needed. It is beyond dispute that the young woman in this particular case gave out the story without shame or show of conscience and for the palpable purpose of advertising herself. The trick was successful for a day, but it ended in her confusion much more speedily than she could have anticipated. The incident shows how a great deal of these so-called society news is manufactured and that the so-called society which seeks indelicately to parade itself is altogether responsible. The society reporter is generally coarse enough for anything, but he would be a helpless imbecile were it not for the assistance and encouragement which he gets from those who seemingly have little ambition beyond getting their names into the newspaper in some form, it matters little how. Happily the South has until recently been free from this kind of thing and public sentiment here is so decidedly averse to the innovation and to the parading of female charms in the public prints that we shall probably have but little more of it. Modesty has always been one of the distinguishing traits of our Southern women and any publication which unnecessarily brings their names, appearance, dress or bearing, before the gaze of the public can not but be repulsive to them. They may bear it in silence as women bear many things, but let not their silence be taken for approbation of this last importation of Northern customs.

Reduce the Burdens.

It is not to win popular favor that the NEWS agitates a reduction of official salaries and fees. It is not to court cheap notoriety that we open our columns to this discussion. Discussions will elicit the truth. The cry of "hard times" and "high taxes" comes from every part of North Carolina. What is the remedy? Noticing "Farmers" communication in Sunday's NEWS, the Salisbury Watchman says: "State, County and Municipal expenses are all too large. The taxes are becoming insupportable. The people are groaning under the burden; and they look to their representatives in the legislature for relief. And there must also be a reduction of municipal taxes. There is a way and the people will find it, to reduce these burdens, and the subject ought to be fairly and squarely met by those in position to act on it."

The Charlotte Observer, in whose columns the question has already been ably discussed, says: "These are some of the reductions which the times demand, and which the people should demand of their representatives. It will be found upon examination that other expenses can be lopped off without doing any injury whatever."

An observant and intelligent citizen of Buncombe county writes:

"Capt. Atkinson was elected in this county as a reformer. He pledged his best and untiring efforts in cutting down official salaries and fees. He showed in his speeches in the county last summer how many thousand dollars could be saved the tax-payers by cutting down fees and salaries and dispensing with the useless officers. Capt. Carter doubted his ability to do much in that way, but promised a hearty and earnest co-operation. Both of our Representatives are good and true men. They will do just what they promised to do, and if there is not a cutting down and lopping off, Buncombe will not be to blame."

Another correspondent, esteemed by the editor of the NEWS as a gentleman of high personal integrity, and whose long experience in official life entitles what he says to especial consideration, writes a private letter, in which he says:

"I see the NEWS advocates a reduction of salaries and fees. Be careful how you apply the scalping knife of reform.

Intelligent and efficient public servants outweigh, by tremendous odds, the minor consideration of salary. Put the scalping knife in the hands of the demagogue and the cheap politicians, and our public service will soon become a reproach to the State. Nobody can object to the discussion of this subject and I may avail myself of your columns at another time."

VEGETINE
will Prevent and Cure
PARALYSIS.

SO. LAWRENCE, MASS., April 30, 1877.

MR H. R. STEVENS:—

Sir:—Some five years ago I commenced taking Vegetine. At that time I had had a shock of Paralysis, and could not walk across the room without assistance. I found great relief from it at first, but discontinued the use of it again, and am now able to do my own work, and am washing to-day. I had taken large quantities of morphine, and was unable to sleep. I have found Vegetine to be a great quieter of the nerves, and after taking it have been able to enjoy a good night's rest. I believe it to be a good medicine, and cheerfully recommend it to others.

A. S. ROBERTS,

No. 1 Kingston Court, Lawrence, Mass

Nervousness, and all derangements of the nervous system, are usually connected with a diseased condition of the blood. Debility is a frequent accompaniment. The first thing to be done is to improve the condition of the blood. This is accomplished by taking Vegetine. It is a nerve medicine, and possesses a controlling power over the nervous system.

I Have Seen the Remedy Tried, and Know it is Good.

NEWPORT, KY., April 27, 1877.

H. R. STEVENS, Boston Mass.:—

Sir: Having sold and recommended your medicines for the last three years, perhaps you would ask why I should recommend them. I will answer, by saying, that I saw such beneficial results in a young friend who has been afflicted with a disease for two years, which was brought on by his own imprudence; and he had taken but one bottle when it showed its power to successfully fight the evil, so that I have always recommended it to young friends with bad blood. If you wish to use this as reference, why, I say you can do so, as I have seen the remedy tried and know it is good

I remain, yours very respectfull

WALNUT HILLS, April 16, 1877.

H. R. STEVENS, ESQ:—

I have much pleasure in informing you that, after seeing the perfect cure of a three-years old case of Dropsy by a friend of mine, I tried to get cured of an old trouble of mine, Dyspepsia. The use of four bottles of Vegetine, according to your directions, was a great success, and I am free of my old enemy. The use of your Vegetine has effected a perfect cure.

Respectfully yours,

L. W. DAVIDSON,

FACTS.

EXAMINE any Green or Japan Tea, and you will find the color will rub off, and if you break a grain, you will see inside the true color of the tea.

BISHOP MARVIN wrote from China:

"You can get no per cent able Chinaman to drink tea after he has been doctored for the Foreign Market."

UNITED STATES, The department of Agriculture at Washington, in a special Tea Report, says:

"The Chinese never drink the dyed teas themselves, they are made for the foreign market."

APPLETONS CYCLOPEDIA, page, 600, says: "Teas are subject to various adulterations, including the coloring to improve the looks of inferior kinds. The materials used are Prussian Blue, Gypsum and Indigo. There is but little un-colored green tea offered for sale.

MESSRS MARTIN GILLET & Co.; with a reputation of over half a century, and in close connection with the markets of China and Japan; Recognizing the truth of the above abuses, have lately introduced He-No Tea. It is selected from the choicest leaf, and is without the expensive coloring, polishing and fancy twisting usually put on teas shipped to America. In this way a fine pure tea like He-No can be sold at moderate price.

HE-NO is Tea in its natural condition, such as the Chinese themselves drink and for the following good reasons, is sold only in original pound and half pound packages

It is the most convenient and economical style of package.

It is weighed and packed where it can be done cheapest and best.

It can be easily identified by the consumer.

It keeps the Tea better.

It prevents adulteration in America.

We are the sole agents for this TEA in Raleigh N. C., and ask our friends to give it a trial. And if not perfectly satisfactory we will CHEERFULLY take it back and refund the money.

HOME REMEDY.

A CERTAIN AND SPEEDY CURE FOR SCROFULA.

FACTS ARE STUBBORN THINGS!

(Registered.)

A BRIEF HISTORY:

The following is from the Raleigh News, and was a voluntary insertion and not an advertisement:

"Years ago an old Indian left a receipt for curing Scrofula with Mrs Person's father. Mrs. Person lives in Franklinton, or in that section. A child was born to Mrs. Person, and it had the Scrofula. The doctors gave it up to die. She thought of that receipt, that was now old and musty, and hid away in an upstairs drawer. She concluded if the child was bound to die, it wouldn't hurt to follow that receipt. She went out and gathered the herb, got the whiskey, and did as directed to the child. Her child now lives well and hearty. More than this: Only a few months since a South Carolinian, whose name has slipped us, was suffering with some scrofulous affection on the heel he had been to the Hot Springs in Arkansas, and from there he went to Antrell Springs. Nothing did him any good. At Kittrell's they told him of Mrs. Person's recipe, and Dr. —— wrote to Mrs. Person if she cured that South Carolinian her receipt was worth money. And the South Carolinian sent her word if she cured him he would give her five hundred dollars. She sent him directions what to do, and asked if they cured him he could send her twenty-five dollars; she wouldn't ask five hundred. The South Carolinian went home, and shortly afterward sent Mrs. Person a check for twenty-five dollars, and wrote the most grateful letter he knew how. Bless those old Indians. We would like to have one for a near neighbor."

UNEQUALLED AS A BLOOD PURIFIER.

MRS. JOE PERSON:

The medicine I purchased of you last winter proved of such benefit to my son, who was troubled with twenty-five running sores, some of them quite large, and of a scrofulous nature. In less than three weeks after commencing the use of your remedy, he was perfectly restored, and is to-day quite sound and healthy. As a TONIC AND BLOOD PURIFIER IT HAS NO EQUAL. Hoping that you may be spared for many years of usefulness, I remain, Very respectfully.

L. J. STOKES.

Louisburg, N. C., May 22, '78.

AS A TONIC AND ALTERATIVE

Being desirous of adding my testimonial to others, concerning the merits of Mrs. Joe Person's remedy for Scrofula, I take pleasure in saying that as a tonic and alterative I do not think it has an equal. I have fairly tested it, and after trying Vegetine, Sarsaparilla, Vinegar Bitters, and various other remedies, I have no hesitation in pronouncing it far superior to any TONIC I have ever used. When I commenced using Mrs. Person's Remedy I was very weak, complexion sallow, and now I am WELL.

Respectfully your friend,

MRS. M. L. BROWN.

Sept. 26, 1878.

THREE CHILDREN IN THREE WEEKS.

CASTALIA, N. C.

MRS JOE PERSON:

Dear Madame—Your letter has been received, and on account of being absent from home for a week or two, have not had the opportunity to answer it. I certainly will take great pleasure in doing all I can in this vicinity in my power towards getting you patients for treatment of Scrofula. I hardly know how to express my gratitude to you for curing my three little children. They took medicine from my family physician for about two years, with scarcely any relief at all. I tried your remedy, and in less than three weeks they were all perfectly cured, and have never shown any sign of breaking out again. I feel very thankful to you. I can safely say that I believe your remedy to be a certain cure for Scrofula. If I can ever be of any service to you in any way, I want you to be sure and call on me. Yours truly,

WM. H. ARRINGTON.

"It will Cure if Fairly Tested."

It gives me much pleasure to be able to state that I have derived an effectual cure of Scrofula from the use of Mrs. Joe Person's remedy for that disease. I had suffered from Scrofula for more than three years, and had despaired of ever getting well. I was treated during that time by three very eminent physicians, without any good result. I then went to the National Surgical Institute, at Atlanta, Ga., and was treated there more than two months, with no better result than my family physicians met with. After I returned from the Institute I was persuaded to try Mrs. Person's remedy, and I had not used it more than a week before I discovered its curative and healing properties. My sores soon began to heal, and the color of my skin changed as fast as the sores healed. I had not thought of ever getting well again, but my hopes increased, my low spiritedness fled before the remedy, and I am now enjoying splendid health and am in good spirits. The remedy is mild as a purgative, and a strong tonic; it will heal the most stubborn sore in three weeks if taken regularly. It is my opinion that it should be taken some time after the sore is healed, to remove the cause of its effects. It should be taken regularly by all means, for I have sometimes neglected it, from the pressure of business, and in all cases found that the cure already made would commence to retrograde, and for this alone it should be taken regularly until an effectual cure is completed. Nothing should prevent regularity in the use of the remedy and it should be taken at the proper time. I would recommend to all who are suffering from Scrofula to try it. It will surely cure you if you give it a fair test. I speak from experience, and not from hearsay. I am a grateful recipient of a cure from the use of it and I am under many and lasting obligations to Mrs. Person for the great relief I have obtained from its use. Sufferers, try it and be cured, is my advice.

I am, respectfully,

JAMES A. MORRIS.

KITTRELLS, N. C.

My receipt for the cure of Scrofula has been tried by me with the most unprecedented success for the last twelve years, and I have no hesitation in recommending it as a sovereign cure for that disease and as a general Tonic and Blood Purifier, it is everywhere giving perfect satisfaction, while my experience with it is too limited for me to specially recommend it for other diseases, I believe it will ultimately prove to be of benefit in all cases arising from impurity of the blood and probably for other diseases.

A CASE OF CANCER.

FAYETTEVILLE, N. C., Aug. 2, 1878.

MRS. JOE PERSON:

Dear Madam—I have been using your Remedy for Scrofula over five months as an experiment for cancer. The cancer is of long standing, the doctors have been treating it, more or less, for twelve years, it has taken off my upper lip and a good part of my nose. When I began to use your Remedy it was growing rapidly worse, but the medicine seemed to check it very soon, and it has not made much progress since, except about two months ago, the medicine gave out, and I was without several days. It then seemed to start anew, and grew worse very fast until I had taken the medicine about a week, since then it has not changed much. I think if I could have had the medicine soon enough, it would have cured me.

For more than a year before using your medicine, I was troubled very much with a disease of the heart, an irregularity in its action. It would miss every third beat for hours, then at other times it would increase in its action, and run up to 200 beats per minute. Since using your medicine I am almost entirely relieved of this, rarely feel it, and then not enough to speak of it. I would recommend to any one suffering with heart disease to try your medicine. As a Tonic and Alterative, I do not think it has any superior. I have been using all the most powerful Alteratives known to the medical profession for the last 12 years and I know of none superior to this. I think your medicine is destined to be a great blessing to the afflicted. Let every one that needs a Tonic or an Alterative give it a trial, and I do not think they will be disappointed.

Very truly and Respectfully,

JOHN BUIE Box 141,
Fayetteville, N. C.

A Timely Donation.

Mr. J. G. Bromell, who occupies what is perhaps, the smallest room in the world, was made happy by the gift of a load of wood, from G. T. Stronach, Esq. Mr. Bromell is rather a protege of the denizens of the court house, and is considered as a sort of oracle by the front portico crowd.

Exciting Runaway.

A pair of mules attached to a country wagon, in which sat a venerable man, caused quite a sensation on Hargett street yesterday morning by a rattling runaway. The lookers on thought that the old man would lose his seat and be dangerously hurt, but with great pluck and presence of mind he kept the reins until the mules were stopped near Blount street. No damage was done.

Praiseworthy Promptness.

Mr. George C. Lamb, Register of Deeds of Martin county, has the honor of being the first officer to send to the Auditor the full property returns of his county. He has sent abstracts of both the listed and unlisted taxables, together with the statement of the indebtedness of the Sheriff, which the law requires the county commissioners to make.

Married.

Mr. Geo. W. Thompson, Jr., of this city, was on Thursday afternoon married to Miss Rosa, daughter of Orren Poe, of Pittsboro. The ceremony was performed at the Presbyterian church in that place, Rev. Mr. Law officiating. The couple arrived in this city yesterday, and took rooms at the Tucker House. Mr. Thompson has for some time been in business here and his numerous friends and acquaintances wish him much happiness in his new life.

In at Last.

Yesterday, about noon, the long sought for official returns of election from Little River Township, were delivered to the Register of Deeds. They were brought in three days since and left at a store here. Thence they were taken by a small boy to the Court House. They came in just a week and a day behind the proper time. The officers at that polling place were Riley Privett, Registrar; Sherwood Brantley, J. H. Walker, W. D. Privett, and C. Booth, poll holders. The official return shows that of the votes cast at that precinct, Davis received 107; Turner, 148; Jones, 2.

FMILE ZOLA'S new book "Helene; A Love Episode," a tale of Love, Passion and Remorse, is in press and will be published in a few days by T. B. Peterson & Brothers, Philadelphia. "Emile Zola" is one of the four great authors in France of the present day, and there he is called the cleverest of the four. His novel "L'Assommoir, to be issued in a few days by us, has passed through fifty-eight editions in Paris, and "Helene" which is extremely interesting—indeed, exciting—has passed into its thirty-eighth edition. "Helene" is an extraordinary book. It is admirably written, by a truly great artist, with a power of realism and absorbing interest, and is full of powerful scenes and life-like delineations of character. It is the great sensation in Paris at the present time, and it is impossible to deny the author's great skill for every reader will acknowledge "Zola's" great power in "Helene." Besides the story, there are many pages devoted to rapturous descriptions of Paris at sunrise, at noon, at sunset, and at night. "Zola" has made his name famous, and he will find plenty of readers for all he writes. His name will make any book sell. It will be issued in uniform style and price with "Theo," "Kathleen," "Savell's Exploit," "Marrying Off A Daughter," and "Sonia," published by the same firm.

The unprecedented success with which the proprietors have met during the past, and their first season having had some five hundred visitors, will encourage them to make further extensive improvements, as it is their ambition to make this the first Watering Place in the South.

Many persons having received such great benefit during the past season from the use of our Lithia Waters, we have concluded to place it upon the market, and it will be found for sale by all the leading Druggists in the State.
